

**Brown bear, brown bear, what do you see?  
I see a teacher looking at me!**

**Are you a preschool director or educator interested in learning more about speech-language development and activities for your preschool students?**

The Speech Pathology Group is offering two exciting services to help:

- 1) **Speech/language/hearing screenings** help identify if a child would benefit from a full speech-language evaluation. (Ages 3-5)
- 2) **"Building Bridges"** workshop trains teachers and parents of preschoolers how to facilitate speech and language development in the classroom and at home. This training provides sample activities and techniques that promote speech and language skills.

Please contact Jill Walson at (925) 945-1474 x 106 or [jill@speechpathologygroup.com](mailto:jill@speechpathologygroup.com) if you are interested in one or both of the services noted above. Scheduling, fees and services are determined based on the individual needs of the preschool.
