

JILL WALSON HAS BEEN NAMED NEW DIRECTOR OF CLINICS FOR THE SPEECH PATHOLOGY GROUP

Walnut Creek, CA -- Jill Walson MS, CCC-SLP, has been named Director of Clinics of The Speech Pathology Group (SPG), one of California's leading providers of speech therapy services, according to SPG Director, Susan Stark.

A 13-year veteran of The Speech Pathology Group, Walson's wide range of clinical expertise together with her collaborative approach are a perfect match for the clinics according to Stark. "Jill brings the perfect combination of experience, leadership and genuine care for her patients to the position," Stark said. "It's rare to find someone so compassionate and talented at direct contact with clients and their families complimented by senior-level managerial, operational and administrative experience. We couldn't be more happy for Jill."

Walson has worked in a variety of settings with various populations including hospitals, schools, early intervention, community-based programs, home visits and clinic services. Prior to being named Director of Clinics, Walson previously served as a SLP and EI clinical Manager. Prior to joining SPG she was with Mills Peninsula Hospital, a Sutter Hospital affiliate.

As Director of Clinics Walson is responsible for SLP consultations, assessments and therapy, staffing and training, program development, clinic operations, marketing, contract management and family collaboration.

Established in 1993, SPG is a leading provider of speech and language services in California schools, clinics and EI settings. In addition to providing contract services for school districts throughout California, SPG operates clinics in Walnut Creek, Concord, Berkeley, East County and coming soon to San Ramon. Individual and group therapy includes early intervention/preschool, school age, adolescents and adult populations. Additionally SPG provides programs geared toward professional/family collaborations and support services for the community. For more information contact SPG at 925-945-1474 or visit online at www.speechpath.com.
